 LinkedIn  mmm.manish163@gmail.com  9272128789  Pune, India

Backend developer with around 4 years of experience in Java and Spring Boot. Have worked across support and development roles from resolving production issues and handling change requests to building REST APIs and backend features. Comfortable working in team environments, debugging production problems, and contributing to development tasks end-to-end.

SKILLS

Languages & Frameworks — Core Java, Spring Boot, Spring MVC, Spring Security, Spring Data JPA, Hibernate

APIs & Backend Technologies — REST APIs, Microservices, Apache Kafka, Redis, OAuth2, JWT

Databases & Tools — MySQL, PostgreSQL, Docker, Git, GitHub, Maven, Postman, CI/CD

Testing & Monitoring — JUnit, Mockito, Prometheus, Grafana

EXPERIENCE

Signovate Technologies Private Limited

Feb 2024 – May 2026

Software Engineer

Bangalore (Karnataka)

- Developed and maintained backend services for an Insurance Claims Processing System using Java and Spring Boot.
- Built REST APIs and claim processing features, including real-time status updates and transaction handling.
- Handled frequent change requests and support tickets from business teams, investigating issues and implementing fixes.
- Integrated Redis caching to reduce database calls in high-traffic workflows.
- Implemented OAuth2/JWT-based authentication and participated in CI/CD pipeline activities.
- Worked on FedEx Dispatch Management System – developed backend modules based on business requirements.
- Wrote unit tests using JUnit, followed SOLID principles, and participated in code reviews.
- Collaborated with cross-functional teams in Agile/Scrum environment.

Infosys Limited

Mar 2022 – Nov 2023

System Engineer

Bhubaneswar (Odisha)

- Provided backend support for shipment lifecycle and container tracking operations in logistics workflows.
- Investigated and resolved production issues by analyzing logs, API flows, and database records within SLA timelines.
- Performed SQL-based data fixes and validations to resolve operational and data consistency issues.
- Developed minor REST API enhancements using Java and Spring Boot for shipment tracking integrations.
- Collaborated with QA and development teams during testing, deployment, and issue triaging.
- Identified recurring issues and contributed to long-term fixes by improving validation and API logic.
- Used Git and followed Agile practices for version control and release management.

EDUCATION

Lovely Professional University

2017 – 2021 | Jalandhar (Punjab)

B.Tech (Computer Science and Engineering)
